# GEIRANGERFJORD CRUISE PORT

## Geiranger - Hellesylt - Stranda

The Geirangerfjord is a spectacular natural experience and attraction - and this picturesque landscape is what we need to protect and to preserve. Nowhere else in the world will you find such a unique combination of deep fjords, steep mountainsides and thriving local communities. The cruise tourism is important to the people living here, where the industry has a positive ripple effect through the local community, and for Norway as a whole. Let us be your tour guide - local destinations with local knowledge.
