PORT OF LAKSELV/ TURNAROUND

The gateway to the land of the Midnight Sun and Sápmi

The Porsanger fjord is the 4th longest fjord in Norway and consists of numerous small islands and exciting attractions. In this Arctic archipelago, there is a large dolomite belt that creates amazing formations and rare plant life. Our nature reserves offer the opportunity to go bird watching, and there are three salmon rivers as well as over 4,000 lakes in the area. Stabbursdalen National Park is home to the northernmost pine forest in the world, and you can also find the spectacular Silfar Canyon a short drive northeast of the town of Lakselv.

If you travel southwards from Lakselv, you will end up in to the heart of the Sápmi, where you can learn more about the Sámi Way of life and culture. Our destination is a true nature gem to discover, here in the land of the Midnight Sun. Lakselv/ Banak Airport is only 10 minutes away from the harbour.
